

Lunch and Learn

*Supporting Early Language and
Play Skill Development*

At Monarch House, we understand the important role parents and caregivers have in the early detection of developmental delays. The research is clear that early intervention is beneficial. The earlier a concern is identified the sooner treatment can start.

This session will provide practical strategies that work in the real world for increasing language and play skills in children with developmental delays or disabilities.

Where: Monarch House Calgary, 1010 - 1st Ave NE, Suite 300

When: Wednesday, August 21st from 12:00PM - 1:30PM.

RSVP: Please call 403.313.0345
